

ASUS X515

Easy portability. Effortless productivity.

One of the world's smallest all-rounder 15.6-inch laptops

Get a wider view of the world

The NanoEdge display gives ASUS X515 a vast screen area for an immersive viewing experience for work and play. Its wide-view FHD panel features an anti-glare coating to reduce unwanted distractions from irritating glare and reflections, so you can truly focus on what's in front of you.

Fast and efficient

ASUS X515 ensure everyday tasks are handled with ease. They are powered by up to 10th Generation Intel® Core™ i7 processors with NVIDIA® GeForce® MX330 discrete graphics. The dual storage design features up to a 1TB PCIe SSD and 1TB HDD, with optional Intel® Optane™ memory technology.

Empower your dynamic lifestyle!

With an overall weight of just 1.8kg*, the extremely portable ASUS X515 is the lightweight laptop that keeps up with your fast-paced lifestyle. It looks good, too, with its Transparent Silver, Slate Grey, or Peacock Blue finish

Reinforced chassis for your durability

X515 feature the metal brace underneath the keyboard that provides a stable platform for a much more comfortable typing and touchpad experience. Besides the structural rigidity, perpendicular braces along the edge of the chassis work like side impact protection beams in automobiles to protect the hinge joint and internal components. The sides of the lid are reinforced and work like side-impact protection beams in automobiles.

EAR HDD protection

The HDD features E A R™ HDD shock dampening protection is designed to protect your data from physical impact. Laptop HDDs are generally more susceptible to physical damage compared to SSDs. This active hard-drive protection feature automatically detects shock and vibration across all three axes to effectively reduce the chances of HDD damage, so you can work without worry, even in a moving vehicle.

ASUS X515

- Windows 10 Home / Windows 10 Pro
- Up to 15.6" 16:9 Full HD (1920 x 1080) matte display
