

With 7.2 MP imaging, high sensitivity and up to 460-shot² Stamina® battery power, the Cyber-shot DSC-S650 is an ideal camera for starting out, stepping up or making the switch from film to digital. Its 3X Optical zoom lens, 24 MB Internal Memory capacity and bright 2.0" LCD screen add up to a great combination of high-value features for first-time users -- and its compact design and affordable price fit into any travel plans or budgets.

- 7.2 Megapixel Super HAD™ CCD
More megapixels give you more detail and definition when you make big prints or crop in tight on your subject. The advanced Sony® Super HAD™ (Hole Accumulated Diode) CCD design allows more light to pass to each pixel, increasing sensitivity and reducing noise.
- 24 MB Internal Memory
You don't need a flash memory card, because the DSC-S650 allows you to capture images with in-camera convenience -- then easily transfer your shots to optional Memory Stick Duo™ media, upload photos to your computer or make prints on your Sony Picture Station™ digital printer.
- Burst Mode
You can fire off three shots automatically at 1-second intervals (VGA standard mode) or 2-second intervals (7.2 MP mode) - a great way to capture a child's first steps or a pet's best tricks.
- Cyber-shot Viewer Software
New Sony software that makes it easier to upload images from camera or Memory Stick Duo™ media -- then organize and browse through photos on your PC screen by simply scrolling through thumbnail images.
- 3X Optical Zoom Lens
3X Optical zoom helps the DSC-S650 bring distant subjects closer and lets you frame shots quickly for better composition -- a real advantage for family sports, outdoor fun and travel photos.
- Memory Stick Duo™ Media Convenience
The DSC-S650 also has a built-in slot for optional Memory Stick Duo™ media -- the compact, high-capacity storage media that are compatible with millions of devices worldwide.
- High Sensitivity
With high sensitivity of ISO 1000, the DSC-S650 gives you better shots in low light so you can shoot without flash to preserve the mood -- great for birthday parties, indoor gatherings and candid portraits.
- Bright 2.0" LCD Screen
The DSC-S650 provides a bright LCD screen composing shots, checking results, sharing your photos on location and reading camera setup menus even in full sunlight.
- Stamina® Battery Power
With optional Sony NIMH rechargeable batteries, you can capture up to an amazing 460 shots² -- shooting capacity that's about the equivalent of 13 rolls of 35mm film. With supplied AA alkaline batteries, the DSC-S650 can capture up to 100 shots².
- Convenient Photo Modes
To adjust quickly for specific shooting situations, the DSC-S650 lets you choose from several convenient photo modes: Auto, P-Auto, and Scene Selections for Twilight, Twilight Portrait, Landscape, Soft Snap, Snow, High Sensitivity and Beach environments.
- QVGA Movie Mode
The DSC-S650 can capture 320 x 240 audio/video clips at high frame rate (up to 30 frames per second³), with length limited only by the capacity of your media.

DSC-S650

Cyber-shot® Digital Still Camera

Specifications

General

Megapixel: 7.2 MP
 Imaging Device: 1/2.5" Super HAD™ CCD
 Recording Media: 24MB internal Flash Memory, optional Memory Stick® DUO Media, optional Memory Stick DUO PRO™ Media

Convenience

Still Image Mode(s): JPEG: Normal, Burst
 Image Quality Mode: JPEG: Fine/Standard

Hardware

LCD: 2.0"¹ (115K Pixels TFT LCD Screen)
 Viewfinder: N/A
 Lens Construction: 6 Elements in 5 Groups
 Microphone/Speaker: Yes/Mono
 Lens Type: Sony
 Docking Station: N/A

Optics/Lens

Focal Length: 5.8 to 17.4 mm
 35mm Equivalent: 35-105mm
 Aperture: f2.8-5.6(W), f4.8-9.7 (T)
 Focus: Single AF
 Focal Distance: Normal Minimum: 19 3/4" (50cm)
 Shutter Speed: 1/8-1/2000 sec. (Auto); 1-1/2000 sec. (Program Auto)
 ISO: Auto, 100, 200, 400, 800, 1000
 Filter Diameter: N/A
 Smart Zoom® Technology: Up to 3.6X (5MP), 4.5X (3MP), 5.6X (2MP), 14X (VGA resolution)⁴
 Digital Zoom: 0-2.0X (Precision)
 Optical Zoom: 3X
 Macro Mode: Auto Macro
 Total Zoom: 6X
 Minimum Focus Distance: 2" (5 cm)
 EV Compensation: ±2.0 EV, 1/3 EV Steps

Dimensions

Weight: 4.6 oz (130 g) Body; 6.2 oz. (178 g) including Battery and optional Memory Stick® DUO Media
 Measurements: 3-9/16" x 2-3/8" x 1-1/16" (91 x 61 x 26.5 mm)

Supplied Accessories

"AA" type one-use Alkaline batteries (x2)

AV cable

USB cable

Wrist strap

Software CD-ROM

NOTE: No Memory Stick Duo™ media or adaptors are included.

Optional Accessories

Cyber-shot® Starter Kit (ACC-CN3TR)
 Rechargeable NiMH Batteries - 2pk (NH-AA-2DB)
 External Slave Flash w/ Bracket (HVL-FSL1B)
 GPS Unit Kit (GPS-CS1KA)
 Soft Carrying Case (LCS-CSD, LCS-CSJ)
 Memory Stick Duo™ PRO Media (MSX-256S)
 Memory Stick Duo™ PRO Media (MSX-1GS)
 Memory Stick Duo™ PRO Media (MSX-1GN)
 Memory Stick Duo™ PRO Media (MSX-2GN)
 Memory Stick Duo™ PRO Media (MSX-M4GS)
 Memory Stick Duo™ PRO Media USB Adptr (MSAC-US30)
 Multi-slot Memory Stick® Adaptor (MSAC-USM1)

Color: Silver

UPC Code: 027242705128

1: Viewable area, measured diagonally.
 2: 460 shots using optional NHAA2DB AA-type batteries. Actual results may vary based on product settings, usage patterns, battery and environmental conditions.
 3: Shooting at high frame rate of up to 30 frames per second requires Memory Stick PRO Duo™ media.
 4: Smart Zoom feature will not work at highest Resolution setting.
 5: 1 MB equals 1 million bytes, a portion of which is used for data management functions.
