MX BRIO 705 FOR BUSINESS

MX Brio 705 for Business is a premium 4K webcam for advanced employees and executives. Powered by our largest image sensor yet, custom-designed lens, and AI image enhancement, MX Brio 705 for Business provides a crisp, authentic video experience.

Completely reimagined and designed for sustainability, MX Brio 705 for Business provides immersive, true-to-life video meetings on every major video platform, in various environments.

- **Superior 4K video quality:** Powered by our new, largest image sensor and a custom-designed lens, MX Brio 705 for Business offers a crystal-clear, ultra-HD video experience.

- **Face-based image enhancement:** AI-powered RightLight 5 takes auto light correction further with face-based image enhancement that provides a more natural image, even in challenging lighting conditions.

- **Modern, forward-looking design:** Made from low-carbon aluminum[1] and plastic components with a minimum of 82% post-consumer recycled plastic[2], giving the webcam a premium feel while delivering sustainability.

- **RightSight auto-framing**[3,4]**:** Automatically detects and centers the camera on users when they stand and move during meetings.

- **Show Mode**[3]**:** Present physical items in video calls by tilting the camera down to show sketches, work in progress, or objects.

- **Dual beamforming mics:** Noise-reducing mics filter out background sounds to ensure employees are heard clearly, even in noisy environments.

- **Integrated privacy shutter:** A simple dial on the lens ring makes it easy to open or close the privacy shutter.

Video	Resolutions	Supports multiple resolutions, including 4K/30fps, 1080p/60fps, and 720p/60fps to best support the quality offered by your application and monitor
	Image sensor	8.5MP *Sony STARVIS*
	Diagonal field of view (dFOV)	65°, 78°, or 90°
	Zoom	4x digital zoom
	Autofocus	Closed-loop autofocus with face-based technology provides a faster and more accurate focus
	Auto light correction	RightLight 5 auto light correction with HDR and face-based image enhancement provides a more natural image, and ensures the user's face is brightly lit in various lighting conditions
Audio		Noise-reducing, dual beamforming mics provide business-class audio performance
Connectivity		Easily connects via *USB-C*; cable length of 1.5 m (4.9 ft)
Ease of use	RightSight auto-framing[3,4]	Keeps the camera centered so employees can stand and move during meetings without leaving the frame
	Show Mode[3]	Present physical items by tilting the camera down to show sketches, work in progress, or other objects
	Integrated privacy shutter	Simply rotate the dial on the lens ring to open or close the built-in privacy shutter
Mounting options		Detachable universal mounting clip fits monitors, LCD displays, or laptops; 1/4" thread for tripod mounting[5]
Image adjustments		Download Logi Tune at www.logi.com/tune to control zoom, adjust color, set manual focus, and easily update firmware
Deployment and management		Logitech Sync[6] supports company-wide deployments at scale. Monitor and manage personal collaboration devices from one single platform with Sync
Certifications		Certified for *Microsoft Teams*, *Zoom*, *Google Meet*, and *Works With Chromebook*

Compatibility		Works with *Windows*, *macOS*, or *ChromeOS*[7], and most platforms and operating systems to ensure compatibility and seamless integration in the workplace
