Universal Quick Connect Floor Stand For Tablets

This streamlined and heavy-duty floor stand gives you quick, easy setups at any business or home environments. The floor stand central base is equipped with four commercial grade lockable casters, perfect for hospitals and doctor's offices. Counting with omni-directional angle, height adjustment and 360-degree rotation, the tablet holder also rotates 360 degrees to accommodate portrait and landscape orientations. The quick-connect mechanism detaches the tablet holder from the stand with a simple squeeze. This allows you to switch between handheld and mounted modes without having to remove your tablet from the holder or from the floor stand. The resizable holder and additional add-on pads are designed to allow full access to your tablets, ports, buttons, and jacks, and accommodate virtually any tablet model.

Features:

- Tilting, 360-degree rotating tablet holder
- 360-degree rotating desktop base with 4 commercial grade lockable casters
- Height Adjustable from 37 to 58"
- Tablet holder compatible with tablet cases up to 1" in thickness
- Holder connects and disconnects easily from mounting base with squeeze buttons
