EXTEND THE FEATURES OF YOUR HP DEVICE WITH ACCESSORY SOLUTIONS

Adding accessory solutions to your HP printers and MFPs helps to improve performance, speed, and security

ACCESSIBILITY

HP is investing in accessible technology as part of our mission to create an inclusive environment focused on connecting people to the technology they use.

CONNECTIVITY

Our range of connectivity solutions can help you get the most from your current print devices. Easy-to-install mobile printer accessories enable employees to print wirelessly[1] from almost any mobile device[2] to HP printers or MFPs you already own. HP's print servers make short work of large print jobs, so you can easily meet high-volume print needs.

FAX

Quickly and easily send and receive faxes by adding embedded analogue fax functionality to an HP device.

Eliminate the need for a stand-alone analogue fax with seamless integration with your HP MFP.

MEMORY

Add HP Memory Modules (DIMMS) to your HP printer or MFP to process documents more efficiently and see improvements in overall performance when printing complex documents, images, and graphics.

SECURITY

Add security solutions to your imaging and printing environment to help protect sensitive data in transit or stored on the device.

Increase security with layers of authentication and by adding a simple user authentication method, like a smartcard.

ACCESSIBILITY

HP print accessibility accessories connect people to the power of technology.
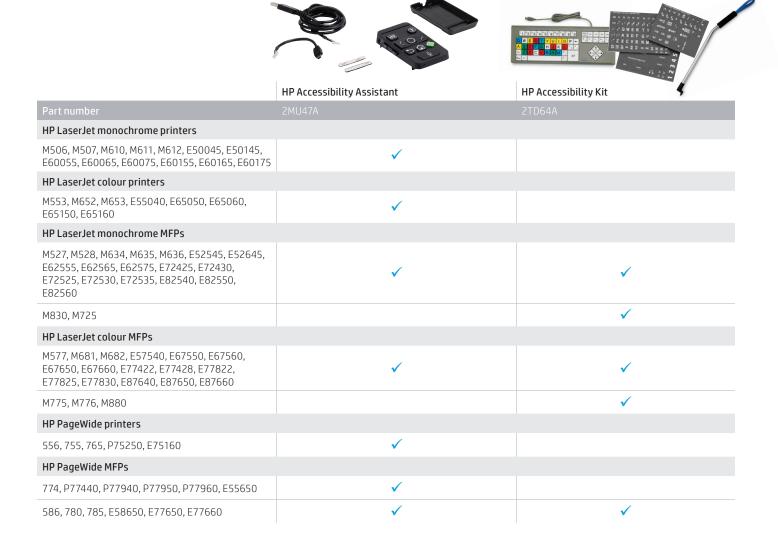

DESCRIPTIONS

HP Accessibility Assistant	Uses artificial intelligence to reinvent the standards of voice commands and screen reader support (patent pending); Section 508 compliant and TAA compliant.
HP Accessibility Kit	This three-in-one solution includes customised Braille and tactile adhesives, an Access Handle, and the BigKeys LX Keyboard to facilitate better interaction between people with disabilities and HP MFPs and scanners; Section 508 compliant and TAA compliant.

SECURITY

Security accessories safeguard sensitive
information and make your data
more secure.

DESCRIPTIONS

HP High-Performance Secure EIO Hard Disk

HP High-Performance Secure EIO Hard Disks are easy to install, manage, and maintain. A straightforward design, automatic key provisioning, and other management tools help you secure your printing network at the device.

Help protect data at rest on your internal HP 500 GB hard disk with an internal or EIO cryptographic solution validated to the FIPS 140-2 standard. Hardware-based AES encryption provides added protection and assurance that information is safe.

Make sure your investment is protected. The HP High-Performance Secure EIO Hard Disk includes an adapter for a physical security mechanism to further prevent theft of your hard disk and attempted access to your information assets.

HP Trusted Platform Module Print Accessory

Add an extra level of security to safeguard sensitive information. The HP Trusted Platform Module (TPM) strengthens protection of encrypted credentials and data stored on your HP printer or MFP.
