BLUETOOTH CONNECTIVITY

Experience the world of Bluetooth technology with the D-Link Wireless Bluetooth 2.0 USB Adapter (DBT-120). Sync your PDA and download images from your Bluetooth camera from across the room or transfer music from your PC to your mobile phone from down the hall. Connect headphones, mice, keyboards, and other Bluetooth devices to your computer with the convenience of Bluetooth wireless technology[1].

COMPACT AND PORTABLE

The Wireless Bluetooth 2.0 USB Adapter was designed and engineered with mobile users in mind, making it a perfect solution for use with notebook computers. Ultra-compact and portable, utilize the device on trips, at work, school, coffee shops, or anywhere around the house for an instant, untethered connection.

SIMPLE SETUP

The DBT-120 is compatible with Windows® XP/2000 and Mac OS® X[2] and works with desktop or notebook computers with an available USB 2.0/1.1 port[3]. To keep your data safe and secure, the DBT-120 utilizes 128-bit encryption and Frequency-Hopping Spread Spectrum (FHSS).

The DBT-120 features Plug and Play and Universal Plug and Play (UPnP) for easy installation and detection of compatible devices. The included software enables you to identify and manage Bluetooth devices on your network.

SEAMLESS CONNECTION

Both notebook and desktop computer users will experience seamless connectivity with the D-Link Wireless Bluetooth 2.0 USB Adapter (DBT-120). The DBT-120 offers hassle-free connections between your computer and Bluetooth devices, providing the perfect solution for home and business users alike.

WARRANTY
1-Year Limited[5]

[1] This device supports Bluetooth® Version 2.0. However D-Link cannot guarantee full compatibility with all devices due to modifications and/or other variations of the devices' implementation of the Bluetooth 2.0/1.2/1.1 standard.
[2] MAC OS X v.10.4.3 or higher required.
[3] Using a USB 1.1 port will affect device performance.
[4] Maximum wireless signal rate derived from IEEE Standard 802.15.1 specifications. Actual data throughput will vary. Network conditions and environmental factors, including volume of network traffic, building materials and construction, and network overhead, lower actual data throughput rate. Environmental factors will adversely affect wireless signal range.
[5] 1-Year Limited Warranty available only in the U.S.A. and Canada.
[6] Computer must adhere to Microsoft's recommended System Requirements.
