

PAD-ADMAE

Articulating Desk Mount with Universal Security Enclosure

For Tablets

Articulating Desk Mount with Universal Security Enclosure

This sleek, articulating monitor arm creates a secure space saving solution on countertops, tables or desks. It's an ideal solution for hotel lobbies, conference rooms, classrooms, waiting rooms, or any place that requires a screen with lots of angle adjustment. The padded base mounts to surfaces up to 2.36-inches thick via simple rotary C-clamp. When the mount is in place, use the provided security tool to lock the clamp. Once installed, the head rotates 360 degrees and tilts at 3 axes, allowing for virtually any screen placement. The center joint features a 19-inch vertical adjustment. It can be loosened, repositioned, and locked in place with an included Allen key. The base joint also allows full rotation, allowing convenient angle adjustments. The metal enclosure features a powerful lock and key security system, and can be mounted either vertically or horizontally. Inside, find plenty of space to neatly route cables to keep devices charged while in use. Use the included foam adapters to create the perfect fit for most 9.7-11" tablets. Weight load capacity is 5 lbs.

Features:

- Sturdy steel locking enclosure fits medium tablets from 9.7-11"
- Sturdy metal C-clamp fits surfaces up to 2.36 inches thick
- Angle adjustable arm with flexible elbow joint allows 19 inches of height adjustment via Allen key locking mechanism at the center joint
