

A woman with long brown hair, wearing a green sweatshirt with a graphic design, is holding a dark grey Samsung Galaxy Book4 360 laptop. The background is a blurred outdoor setting with a building featuring arched windows.

SAMSUNG

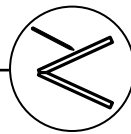

**Built flexible for
the fluid worker**

**The Galaxy Book4 360
is purpose-built for the
hybrid worker, giving
you the agility and
responsiveness to adapt
to changing situations.**

Flex your creativity at work with a device that transforms to help you take on any task in your workday. The Galaxy Book4 360 can turn from a laptop to a tablet in seconds, thanks to its rotating hinge.

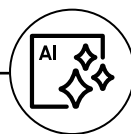

Better yet, the Galaxy Book4 360 doesn't sacrifice performance for flexibility. It boasts a 15.6" Super AMOLED touchscreen for immersive viewing. You can also use the responsive S Pen to take notes and tap away at the touchscreen in tablet mode and do it all for longer thanks to a long-lasting battery.

SAMSUNG

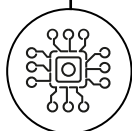

Transform your view of work

Whether you're reading reports or sketching out your big ideas, the Galaxy Book4 360's 15.6" hinged display is a marvel. Not only does it produce an amazing picture, you'll be able to transform it from laptop mode to tablet mode in an instant. You can go from tapping away on a report to pinching, zooming and swiping through imagery or video—just like that. With the power of the next-generation Intel® Core™ processor, you'll enjoy incredible clarity in either mode. And thanks to the Super AMOLED screen, you'll experience vivid colours, deeper blacks, bright whites—ideal for both work and entertainment.

Simplify your workday

Get a helping hand for whatever you're working on. Want a few ideas for that image you're working on in tablet mode? Or a list of summarised insight for that report you're typing up? Just call up Microsoft Copilot—your new AI assistant. With one tap, you can call up Copilot to complete a wide variety of tasks across the Microsoft 365 suite—whether that's writing a formal email, identifying patterns in big spreadsheets of data, or drafting a presentation in a matter of minutes¹.

Sharpen your working style

Master multi-tasking with a device designed specifically for it. The Galaxy Book4 360 is the ideal do-it-all 2-in-1 for everyday users. With the latest Intel® Core™ processors, the laptop ensures your workday is fuss-free. Whether you're drawing up notes with your S Pen or writing up a report, you can seamlessly switch between tasks whenever you need to. And when it's time to update the team on your progress, you can jump on a video call and keep working in the background, thanks to smart webcam auto-framing. The Galaxy Book4 360 is proof that flexibility is for every worker.

1. Microsoft Copilot for Microsoft 365 subscription required.

Technical Specification

Galaxy Book4 360

Power to match your creativity

Power through your creative workflows, in tablet or laptop mode, without having to worry about charging. Thanks to its long-lasting battery, you can work straight through office hours and beyond. That's plenty of time to take care of work and even some to enjoy your fav entertainment on the train home.

The best of every world

Take on every opportunity and come out on top, with a 2-in-1 device designed to work around you. Your Galaxy Book4 360 features a seamless, fluid 360-degree hinge, allowing you to use your device as either a laptop or a tablet. You could start your day in the office, writing up reports or entering data, then take it out into the field to make handwritten notes and sketches. That's unbeatable flexibility for those who demand more out of their workday.

And no matter where you take it, you're sure to impress. With sleek lines, a strong aluminium chassis and a luxurious finish, this is a device that's bound to turn heads.

Untether your webcam

Keep working your way, even during video calls, by setting up your Galaxy smartphone as an external webcam². Not only can you use the finely tuned cameras to create a crystal-clear image, you can also free up your 2-in-1 device for other complimentary tasks—like note taking or sketching ideas on the move. And when you are moving around, you'll remain centred, thanks to auto-framing and background-blurring features built into your smartphone. Want to show off the work you've created on your Galaxy Book4 360? Just flip to the rear smartphone camera to change the perspective.
