DisplayNote **Launcher**

# Quick Start Guide

Get set up on your Intel NUC

## Before you get started

There are a few things that we recommend doing before getting started:

- ✔ Assign an Exchange room mailbox to this device so that you can view and start meetings from the Launcher home screen.
- ✔ Install any video conferencing tools you want to use, e.g. Zoom, Microsoft Teams, GoToMeeting.
- ✔ Ensure others apps you use in your meetings are also installed, e.g. your wireless presentation software, whiteboard tool.

If you need help setting up your Exchange calendar or video conferencing tools, go to **[support.displaynote.com](https://support.displaynote.com)**

## Getting started

### 1. Open Launcher

You will be prompted to enable file system access when you open Launcher for the first time. Please follow the on screen instructions and continue.

### 2. Register Launcher

Use the licence key below to register Launcher:

Note, this key can also be found on the base of your Intel NUC device.

### 3. Set up Launcher

Follow on-screen instructions to complete the Launcher setup and start experiencing better meetings.
