

Overview

9 watt 3-piece speaker system

Genius launches the latest 3-piece speaker system for the desktop PC, the SW-S2.1 350. This system can upgrade your listening experience from 2.0ch to 2.1ch and the SW-S2.1 350 is great for your budget.

The black compact design of the satellites and subwoofer looks great next to your PC. The wood subwoofer with a 3" driver built-in delivers better bass enhancement. All the controls are on the front of subwoofer for easy selection. You can adjust the volume and bass to your favorite sound level and use the earphone jack for private listening.
