GKM602R

Kaliber Gaming™ Wireless Gaming Keyboard and Mouse Combo

Highly customizable wireless gaming keyboard and mouse

Wireless Gaming Keyboard & Mouse

Kaliber Gaming's new GKM602R Wireless Gaming Keyboard and Mouse Combo offers both gamers and desktop users a great way to "cut the cord," while also providing key features for when it's time to get your game on. The 2.4GHz wireless connection allows working from a distance, so you can play games from the sofa or work in a conference room without being tethered to the computer.

Ultra-Durable Keyboard With Innovative Diamond Ring Keycap

The GKM602R's innovative Diamond Ring Keycap structure provides a solid stroke, free of the lateral play or "slop" common to other keyboards. The 8 anti-ghosting keys ensure the most important keystrokes are always accurately read, even when you're mashing multiple keys at the same time. Even when mashing keys, the durability of the GKM602R keyboard switches are rated for over 20-million cycles, so you can count on years of hard-use service.

The 7-Button Precision Gaming Mouse

The included 7-button precision gaming mouse features three programmable macro buttons and an adjust on-the-fly DPI button that is perfect for shifting between speedy movement and controlled aiming. To stand up to the rigors of online gaming, the GKM602R mouse features Omron 10-million cycle switches inside the mouse.

- 2.4 GHz wireless connection – up to 33 ft.
