Simplicity through multiplicity

Necessity breeds invention...such as the new family of office machines from Xerox. Whether you need copying, printing, faxing, or all of the above — plus more — Xerox combines multiple features into one streamlined system. The more functions at your fingertips, the faster and easier your workflow. Multiply productivity while simplifying tasks with these powerful players.

CopyCentre® C123/C128

copier

The basics, and then some.

The CopyCentre C123/C128 copier goes beyond the basics with a host of special features to make everyday copying jobs a breeze.

- Fast copying at up to 23/28 ppm, with your first copy out as fast as 4.5 seconds
- Flexible paper handling with automatic duplexing
- A multitude of special features make copying quicker and more convenient, including Build Job*, Transparencies + N-Sets, Multiple-Up, Booklet Creation*, Repeat Image, Posters, Covers* and Book Copy
- Optional walk-up fax extends your capabilities
- * Available with Hard Disk Drive Option

WorkCentre® M123/M128

multifunction

Add powerful network printing at an affordable price.

The WorkCentre M123/M128 multifunction is the next step up, providing the same flexible copying capabilities as CopyCentre, but with powerful printing added.

- Network printing meets busy workgroup needs for speed and efficiency
- Print features including Watermark, Covers and Posters make complex print jobs simpler, as do optional advanced features like Sample Set, Delay Print*, Secure Print* and more
- Network management tools enable simple installation and add powerful administrative features
- * Available with Hard Disk Drive Option

WorkCentre® Pro 123/128

advanced multifunction

Multiple functions in one easy system.

With this robust machine, you get all the features of WorkCentre, plus advanced multifunctionality.

- Standard additional print features, including Secure Print and Delay Print, increase your options while protecting mission critical information
- Scan to multiple destinations, including email, network file server, mailbox, desktop, templates and i-fax
- · Walk-up fax comes standard

A simple-to-use WOrkhorse for unparalleled performance

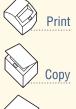

Simplify your workday with a new family of office machines from Xerox, available at three feature-rich levels. Their major strengths include true 1200 dpi print resolution, best-incluse media handling, and simply outstanding copying, scanning and document workflow functionality. Whether you need basic copying or a full suite of multifunction capabilities, Xerox offers a highly evolved device to get your work done quickly and efficiently.

More Choices to meet your needs

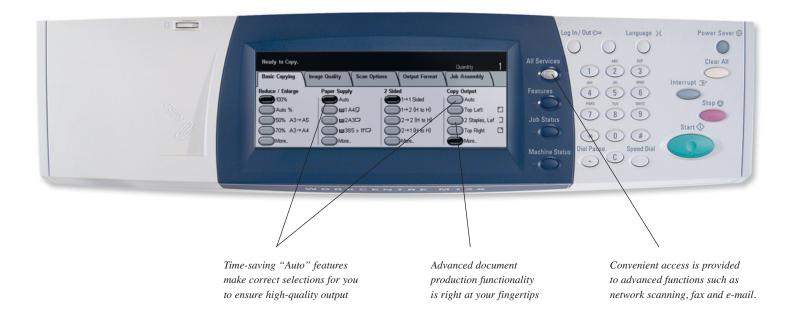

Choose the level of functionality that you need to be productive. From walkup copying with optional fax, to copying and network printing, all the way to print, copy, scan, fax and email with unparalleled speed and power.

Many features are accessible with the touch of a single button, thanks to a simple, intuitive user interface.

Uniquely simple

With Xerox, advanced features are easy to use. An intuitive interface and intelligently crafted paper handling make these machines a joy to have in the office.

- Smart paper trays sense paper size and automatically match the requirements of the print application.
- A short paper path makes paper handling extremely reliable – even for heavy or specialty papers.
- Industry-leading user interface reduces steps to complete everyday jobs.
- Keep work flowing with program-ahead capabilities to perform multiple tasks simultaneously.

Leading-edge features

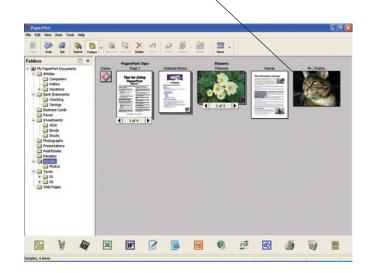

Packed with a full range of advanced features you won't find on other office machines in this class, these Xerox products automate daily tasks.

- With the printing option, you get 1200 x 1200 dpi resolution, an optional 20 GB print hard drive and Postscript 3 for maximum performance in a busy, shared environment.
- Save and store jobs on the device and print/copy them when you need them.
- Xerox SuppliesAssistant[™] manages your supplies usage and ordering to ensure you have the right supplies on hand at any time.
- FreeFlow[™] SMARTsend[™] software lets you move paper documents into a digital workflow and quickly access, store or distribute them to anyone, anywhere, in virtually any format.
- Special transparency feature delivers transparencies and handouts in the same job.

An Embedded Web Server (EWS) allows you to monitor print jobs and run status using a PC browser. Users can set print and fax functions from the PC. Network administrators can better understand and support the office's printing needs.

Technologically savvy

These devices are full of robust, high-performance features that are scalable to any workgroup. They streamline and integrate processes to simplify device management and increase productivity.

- Best-in-class scanning solutions convert hardcopy into digital documents and distribute them anywhere: email, PC desktop, document management system, internet fax.
- Scan to PC Desktop software lets you move documents into word processing, spreadsheets and database applications for editing, distribution and storage...saving time, money and effort.
- Secure print, secure fax and encrypted data transmission protect your mission critical information.
- CentreWare® Web software proactively manages an entire enterprise-wide print environment regardless of manufacturer. It allows you to keep close tabs on your system to ensure everything is working smoothly.
- Easily set up, monitor and manage remote devices from your desktop using CentreWare® Internet Services software.
