The mophie Advantage

mophie tests its products at three different stages to ensure quality with reliable, long-lasting performance. mobile pay is no different. Carefully designed and tested, internal bumpers protect your investments and allow your associates added flexibility. Best of all, the mobile pay system is designed to work with your existing POS system. mophie leveraged its years of successful design to create cases that not only protect your bottom line but also power your retail needs.

Premium Real World Solutions

First to market with this innovative design, mophie's mobile pay system uses magnets to attach and detach the payment terminal to the phone. The user-friendly design allows all types of payment transactions and easy access to the camera when scanning barcodes or QR codes. Associates won't need to separate pieces when counting inventory or ringing up a customer, substantially reducing the learning curve. A locking top cap on each case ensures your devices are secure and always in place.

Customizable System

The innovative mobile pay system allows any associate to be to be a check-out point for your customer. Plus, accessory options offer customized solutions for your needs. Optional shoulder straps and belt clips keep devices within reach but out of the way when not needed. A customizable, wireless multi-device charger simplifies charging and syncing multiple devices. Each piece also includes a fast USB-C port for wired charging and syncing of individual devices.
