

Preferred over earbuds for comfort and sound control, over-the-ear headphones and headsets play an important role in classrooms, school libraries and learning labs. The MAXCases Extreme Headset covers all the bases, with a design that's ideal for the rigors of all-day use. Adjustable ear pieces with padded covers provide comfort for extended listening, while the durable, fixed-position stub mic delivers clear audio quality. Accessibility features like Left-Right earpiece labels and in-line volume control make them easy to use by even the youngest students. Created to last, the rugged design includes a durable, braided cable, a flexible headband and smooth, easy-to-clean surfaces. Drop tested up to 6.6 feet (2 meters), and covered by a two-year warranty.

Extreme Headset

Classroom tough, comfortable listening

Extreme Headset
