

## Computer Power Cord - NEMA 5-15P to Right-Angle C13 - 3 ft.

StarTech ID: PXT101L3

This NEMA 5-15P to C13 power cord connects to your hard-to-reach peripheral devices.

The right-angled C13 connector positions the cable so that it's flush with your device, which is perfect for connecting in tight spaces because it doesn't require as much clearance at the connection point as a straight connector. It's perfect for wall-mounted monitors or any device that sits snugly against a wall or is stored in a compact space.

The short 3-foot cable length means less clutter, to ensure a tidy and professional installation.

The PXT101L3 is built to exact specifications and is fully tested to ensure maximum performance. Plus, the cable is backed by a StarTech.com lifetime warranty for guaranteed reliability.

### Applications

- Connect your hard-to-reach computer, monitor, printer or other device to a power outlet

### Features

- Power your wall-mounted devices
- Create a flush connection at your peripheral device
- Guaranteed reliability

**Technical Specifications**
