Samsung ATIV smart PC |Pro 700T

Extreme mobility and powerful performance in one PC.

(Shown with optional docking keyboard)

11.6" Smart PCs Featuring Windows 8 and Detachable Keyboards

Serious mobile professionals crave speed and flexibility. Both are attainable with the Samsung ATIV Smart PC Pro 700T. On one hand, they're ultra-thin tablets. On the other hand, they're full performance PCs. Together, they're one serious solution for go-anywhere computing. Powered by an Intel® Core™ i5 processor and designed for Windows 8, they include an optional keyboard*, ten-point touchscreen and S Pen™ functionality enabling business professionals to connect with their PCs like never before. And since they're from Samsung, their 11.6" 1920 x 1080 displays make everything look flat-out amazing.

Powered by the Intel® Core™ Processor Family.

Intuitive Ultra-Thin Design
The optional keyboard dock lets users shift from notebook to tablet effortlessly. So now they can use their PC how they want it, where they want it.

Write, Sketch and More with The S Pen™
Sometimes people just want to jot things down. The S Pen lets users take notes, sketch and send messages in their own handwriting, then conveniently stores in the tablet.

Stunning Display
The 1920 x 1080 Full HD display features 400-nit SuperBright™ Plus technology, for a high-resolution image that's up to twice as bright as traditional displays.

Discover Windows 8 Pro
Windows 8 64-bit (select SKUs only) provides instant access to friends, apps, sites and more. And Quick Starter adds a convenient start button so users can navigate the way they know how.

10-Point Touch Screen
A beautiful Windows 8 interface lets users easily access all their files with just a touch of the screen.

4G LTE Enabled
With AT&T 4G LTE (XE700TIC-HA1US), the ATIV Smart PC Pro 700T lets users download and stay connected on the road.

Samsung
ATIV smart PC Pro 700T

Samsung recommends Windows 8.
