

TOSHIBA

The New TECRA A50 Series.

Raising the bar for modern business.

The TECRA A50 fulfils your users' business requirements with high performance and reliability powered by Intel® Core™ 8th Generation CPU up to i7. Featuring a 15.6 display that delivers the enterprise-class features professionals want, the laptop offers the legendary TECRA performance and durability, plus the advanced security features today's small to midsize organizations need to stay fully productive and well protected, too.

Product Highlights

Designed, Manufactured and Engineered by Toshiba

Toshiba is the only major laptop manufacturer with the ability to write its own BIOS, develop, engineer, manufacture and extensively test laptops in-house to optimize system components and provided security and quality simply found nowhere else.

Professional performance

Built to work straight out of the box, the TECRA A50 reaches maximum performance without relying on external peripherals. With the latest Intel® Core™ architecture, Wi-Fi and LAN capabilities, the device single-handedly delivers on every professional demand. The TECRA A50 has a 15.6" (39.6 cm) anti-glare screen that combats the glare of office lighting, an advanced system that supports silent working and a full size keyboard for added convenience and comfort.

Connected to your business needs

The TECRA A50 enables you to output your onscreen content to two Ultra HD displays using the optional High Speed Replicator III dock. The dock conveniently allows you and your staff to extend the laptop's viewing capacity across external displays with ease - ideal for working on multiple documents at once, or sharing presentations with colleagues.

Keeping data secure

Spill- and drop-resistant, the TECRA A50 is designed to withstand the challenges of mobile usage, as tested and proven by the device's H.A.L.T. compliance. Inside, the 3D HDD Impact Sensor protects the HDD in the event of physical damage, keeping your business-critical data intact, while outside, a silent heavy-typewriter keyboard withstands even the most demanding workloads.

SPECIFICATIONS

DESCRIPTION	OPTIONS
Processor	Intel® Core™ i5-8250U Quad Core Processor (1.6GHz up to 3.4GHz, 6M Cache) Intel® Core™ i7-8550U Quad Core Processor (1.8GHz up to 4.0GHz, 8M Cache)
Operating system	Windows 10 Professional 64-bit
Graphics	Intel® UHD Graphics 620
Memory	2 main memory slots configurable up to 32GB (service replaceable only)
Storage*	500GB HDD (7200 RPM), 1TB HDD (5400RPM) 128GB/256GB/512GB m.2 SATA SSD
Optical Drive	DVD SuperMulti
Display	15.6" (39.6cm) HD widescreen anti-glare display at 1366 x 768 native resolution 15.6" (39.6cm) Full HD widescreen anti-glare display at 1920 x 1080 native resolution
Audio/Visual	Built-in stereo speakers, HD webcam with dual microphones
Input Devices	Spill-resistant, raised-tile keyboard with numeric keypad, Touchpad pointing device with multi-touch control
Communication	Intel® Dual-Band Wireless-AC 8265 802.11ac plus Bluetooth® 4.2, Intel® Ethernet Connection i219 Series (10/100/1000)
Ports	HDMI, VGA, 4x USB 3.0 (or optional 3x USB 3.0 (1x Sleep&Charge) and 1x USB Type-C), RJ-45 LAN, headphone/microphone combo, docking connector
Expandability	Memory Card reader (SD, SDHC™, miniSD™, microSD™, SDXC, MMC (shared slot may required adapter for use)
AC Adaptor	45W 100-240V/50-60Hz Universal AC Adaptor
Battery Type	4-cell, 45Whr Lithium Ion battery pack (user replaceable)
Security	3D HDD Protection, Trusted Platform Module (TPM) v2.0, Fingerprint Reader (Optional), Security lock slot
Physical Description	Dimensions (W x D x H): 379 x 258 x 24.05mm Weight: Starting at 2.05kg
Warranty*	1-year or 3-year International limited warranty (carry-in), 1-year battery
Environmental Specifications	Temperature: Operating 5°C to 35°C (41° to 95°F); Non-Operating -20° to 65°C (-4° to 140°F) Thermal Gradient: Operating 15°C per hr. max; Non-Operating 20°C per hr. max Relative Humidity: Operating 20% to 80% non-condensing; Non-Operating 10% to 90% non-condensing Altitude (relative to sea level): Operating -60 to 3,000m.; Non-operating -60 to 10,000m. Shock: Operating 10G; Non-operating 60G Vibration: Operating 0.5G, 0.25G; Non-Operating : 1G
