# Kensington Locks - Custom Keyed Solutions

Custom Keyed Solutions are the most popular security option for any business or institution. They give you more control over equipment while safeguarding employees from laptop and data theft. Choose from one of the distinct options for the kind of access and control that is right for you:

Master Keyed

Unique, individual keys and locks for devices; Master key opens all locks. Allows individuals access to own equipment while IT manager has control of all the equipment and data.

Single Keyed

All locks are alike; only one master key will open locks. No individual keys provided. Designed to reduce risk in classroom, lab, or library environments. Computer can be locked in place with IT manager access only.
