SubCategory	-
Product Family	Pre-Release
Product/Service Category	Pre-Release
Product Heading/Tagline (ie. 25-Word Description)	Logitech Zone Wireless is the wireless headset specifically designed for busy workspaces. Great for talking, awesome for music, and serenity for when you just want to concentrate.
Feature Benefits	Open workspaces are great for collaboration, but not so great when the noise around you makes it hard to concentrate. Active noise cancellation substantially reduces unwanted ambient sound, so you can get focused and stay focused. Great for Music and Talking with immersive sound for listening to music and a noise-canceling mic that ensures that your voice is heard on the other end of a call—not the noise around you. Intuitive and simple controls to adjust volume, play and pause music, start and end calls, activate/mute the microphone, power on/off, active noise cancellation, and Bluetooth™ pairing. Also supports wireless Qi charging. Designed to be comfortable for use all day, every day. The silicone-padded headband is lightweight and provides just the right clamping force for a great fit. Soft leatherette ear pads are cushiony and breathable, so your ears don't get hot. Connect to your computer and smartphone simultaneously and seamlessly switch between connected devices at will. The 30m (100') wireless range provides freedom to roam while staying connected.
Package Contents	Wireless headset USB-A dongle Charging cable Travel Bag User documentation
Technical Specifications	<p>Dimensions Headset: H - 6.88 in (174.7mm) W -6.96 in (176.7mm) D - 2.78 in (70.7mm) Weight - 6.4 oz (.1808 Kg)</p> <p>Ear pad dimensions: H - 2.78 in (70.7mm) W -2.78 in (70.7mm) D -.65 in (16.4mm)</p> <p>Dongle: L - .85 in (21.5mm) W - .54 in (13.6mm) D - .24 in (6mm)</p> <p>Microphone: Type: Omni-directional dual MEMS mic array, Frequency response: 85~20kHz @-3dB (ECM mic freq resp)</p> <p>Speakers: Frequency response (music mode): 30~13kHz @ -10dB Frequency response (talk mode): 100~8kHz per TIA920</p>
