You are truly 'mobile' and you know the cruel truth that at some point you will need just the item that you left behind because your pack was not big enough. You need a pack specifically designed for a computer that will also carry all of your gear. We've designed this pack, from the Cool-Mesh™ ventilated back panel to the SafetyCell™ Computer Compartment, to be better in every way. An integrated, separate Tablet pocket means you can carry your iPad/e-reader wherever you go with your computer. If you enjoy the freedom a backpack offers, this is the one for you!
