### LAPTOP LINK FOR MEETING ROOMS

# **LOGITECH SWYTCH**

With a single USB connection, Logitech Swytch links a laptop to the room's display, camera, and audio devices. Now, people can use meeting rooms with any video conferencing software, webinar platform, or streaming service.

#### JOIN ANY MEETING FROM EVERY ROOM

Logitech Swytch is a BYOM (bring your own meeting) laptop link for video conferencing in meeting rooms, linking a Windows® 10 laptop, MacBook®, or Chromebook to the room's AV equipment with a single USB Type A or C connection.

Swytch works in rooms with a dedicated computer — including Microsoft Teams Rooms and Zoom Rooms — and in BYOM rooms equipped with a only conference camera and display. Simply connect Swytch to the laptop via USB and launch the desired application to enjoy broadcast-quality video and content sharing at up to 4K resolution.

With a one-cable laptop link to a meeting room's AV devices, Logitech Swytch makes every room ready for any meeting.
