# InfiniView Lite

## 3-in-1 Digital Rearview Mirror, Dual Dash Cam, & Backup Cam

Drive with less blind spots and more visibility of your surroundings with the InfiniView. The new InfiniView is a 3 in 1 package, complete with a dash cam, 9.7" digital touch screen anti-glare mirror, and rearview system to help you back up. With easy installation, the InfiniView simply clips onto your already existing rearview mirror. This digital mirror has a dash cam that pulls out on the front and a rear camera to record everything that unfolds on the road. The rear camera is IPX7 water resistant so it can be placed outside at the rear and capture everything, regardless of weather conditions. To ensure clear videos, both the front and the rear camera record in 1080P. The Sony Exmor sensor is in the front camera and the Sony STARVIS sensor is in the rear camera perfect in low light situations. Recording at 170° wide angle this will ensure that users will be able to grab more lanes on the road and all those small details, such as license plates.

To change to a rear camera on the digital rearview mirror, all you need to do is click a button and it'll automatically switch the view to your rearview. Additionally, drivers can use scroll up and down on the touch screen mirror to move the rearview camera to make sure the path is clear. With the InfiniView drivers will no longer drive with an obstructed view!

### 3-in-1 Device

A 3-in-1 system, your vehicle will be fitted with a fully touch screen digital rear view mirror, rear view system, and back up camera calling for a streamlined set up to allow you drive with assurance.

### Delay Free Camera

The InfiniView Lite displays video in real-time, ensuring an accurate view of your surroundings.

### Sony Exmor (Front) & Sony STARVIS (Rear) Sensor

A Sony Exmor sensor in the front camera and a Sony STARVIS sensor in the rear ensure crystal clear imaging in low light situations.

### Supports 64GB, Includes 16GB MicroSD

Supports up to 512GB of external storage, allowing hours of footage before being loop recorded over. A 16GB microSD card is included in the package, so you'll be set to install in your car and start recording.

### Adjustable Rear Lens

The view angle of the rear lens is adjustable on the camera. Simply swipe up/down on the display to adjust and show just the right angle to see what is behind your vehicle.

### Water Resistant IPX7 Lens

Drive with more visibility no matter the weather. View a clear image when driving in the rain or snow with an IPX7 resistant rear camera proven to withstand harsh weather conditions.
