

# Digital signage and device management

For corporate and educational environments

## Digital signage

Inform, inspire and motivate employees, teachers and students with tailored communication such as imagery, videos, company news and more.

## Cloud management

Empower IT administrators with remote access and control of device management.

## Room availability

Synchronize meeting room screens with calendars and agendas.

## Power conservation

Automate screens to turn on and off according to office hours.

## User permissions

Invite colleagues and assign different access levels depending on rank, location and use case.

## Network security

Rest easy with SSL encryption for secure communication between Airtame devices and Airtame Cloud.
