

Pico Projector

High Definition Experience

The AAXA P3 Pocket Projector features the highest HD resolution available on any battery-powered pico projector. With a native resolution of 1024x600 (WSVGA), the P3 is powered by AAXA's 15,000 hour triple-LED Vibrant Color technology producing 50 peak lumens of brightness capable of operating for 75 minutes on a single charge. Coupled with a Liquid Crystal on Silicon (LCoS) imager the AAXA P3 projects "big, bright, brilliant images".

Weight: 0.8lbs (12.8oz)

Supported File Formats:
 AVI, MPG, MP4, MP3, RMVB, RM, JPG

Highest Resolution for a Pico Projector

Through the Liquid Crystal on Silicon (LCoS) imager the P3 delivers highest-in-class resolution of 1024x600 (WSVGA) which is 30% more pixels than most other pico projectors.

Long LED Life

The P3's LED light source lasts 10 times longer than conventional lamps so bulb changes are a thing of the past!

Image Size up to 80"
