

# HP Color LaserJet Enterprise MFP M776 series

Brilliant color prints, JetIntelligence technology and the world's most secure printing <sup>1</sup>

Expect brilliant color prints from advanced MFPs, equipped with JetIntelligence technology. Offering the world's most secure printing <sup>1</sup> and a wide range of paper handling features, this is printing that helps save time and simplifies workflows.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: <http://www.hp.com/learn/ds>
