

Scout Pro

2K 3-Channel W-Fi GPS Dash Cam

The Scout Pro is a Rideshare friendly 3-channel dash cam shooting in 2K (Front) + 1080p (In-Cabin) + 1080p (Rear). In 2-channel mode, it can record in 4K (front) + 1080p (rear). With a CBDII power cable included in the package, monitor your car 24/7 using the built-in parking mode for security. Connect your dash cam and smartphone through the mobile app to view, download, and share your footage directly, and track all driven locations and incident location with GPS logging. Supports up to 256GB of storage, allowing for hours of footage to be saved before old recordings are loop recorded over. A 32GB microSD card is included in the box so after installation, you can begin recording immediately.

Provide clear video evidence of what's happening around your vehicle in times when you need it the most.

2K 3-Channel Dash Cam

Capture clear footage of license plates, signs, and in-cabin footage. Provide clear evidence when you need it the most.

24/7 Surveillance with CBDII Power Cable

Monitor your car 24/7 using a CBDII power cable to power on your dash cam when it's parked. Easy DIY, no need for professional hardwire installation. Frees up your cigarette power port.

Wi-Fi for Instant File Sharing

Connect your dash cam to the mobile App on your smartphone to conveniently view, download, and share your footage instantly

GPS Logging to Track Incident Location

GPS logging tracks the accurate speed and location information from the dash cam when the car is in motion. This can be vital information in pinpointing the exact location where an incident happened.

Supports 256GB, 32GB MicroSD Included

Supporting up to 256GB, you won't need to worry about a limited amount of space or your footage being constantly being loop recorded over. An 32GB microSD card is included in your package, so you'll be good to immediately install and start recording your drives.
