Counterbalance Monitor Arm

Counterbalance Monitor Arm

This intuitive counterbalance monitor arm gives monitors superlative positioning options, making it the ideal solution for hotel lobbies, conference rooms, classrooms, or any place that requires a monitor mount. The arm clamps to any table or countertop up to 3.34-inches thick with the included hardware kit. This mount also includes a grommet feature that allows for the mount to be drilled right into the surface. The VESA plate attaches to any 75 x 75 or 100 x 100mm compatible device or enclosure, and can be easily set up for either portrait or landscape orientation. The flexible hinge allows for tilting and 360-degree rotation of the chosen attached device. Arm positions are easily adjusted via the included Allen keys. To properly balance the arm with monitor mounted, firmly hold the arm horizontally, adjust the tension with the Allen key, reposition and retighten the arm. Both the articulating arm joints, as well as the placement of the articulating arm on the base pole are able to be adjusted with the provided Allen key. With the versatility to adjust about every joint of the mount, you have the control to make this the perfect mount for your needs! Rated for monitors up to 27-inches and from 4.4-15.4 lbs.

Features:

- Articulating arm joints and placement of the articulating arm on the base pole are all able to be adjusted for customized height.
- 360-degree rotation
- 75x75 and 100x100mm VESA compatible standards
- Compatible with monitors up to 15.4 lbs. and 27-inches diagonally.

Specifications:

- Weight: 5.6 lbs.
- Pole height: 16.5"
- Height adjustment: 13.2" – 19.5"
- Arm adjustment: 1.9" – 5.8"

Package Includes:
