Work flexibly.  
With extra security.

The move toward hybrid working means that the modern workplace is no longer a single, easy-to-secure location. Users can be working anywhere, with an increased chance of visual hacking.

Owners of the Surface Laptop 13.8” require a privacy screen filter that can be quickly attached and detached. The MagPro™ Elite Magnetic Privacy Screen Filter attaches seamlessly to the Surface Laptop’s magnetic frame, requiring no inconvenient adhesives.

The screen narrows the viewing angle to  $\pm 30^\circ$ , limiting the chance of unauthorised viewing and reducing harmful blue light and glare.

- Reversible screen with matte and glossy sides
- Limits viewing angle to  $\pm 30^\circ$
