

# Product datasheet

Specifications

Subscription, Ecostruxure IT Expert, 3 years, 100 nodes, Digital, Remote monitoring and management of Data Centers.

SWITE3YR100N-DIGI

## Overview

|              |                                                                                                                                                                                                                                                                                                                                                                                            |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Presentation | EcoStruxure IT Expert monitors and protects your critical equipment, providing 24/7 visibility through live data, smart alarming, and data-driven insights on the health of your connected assets directly to your smartphone. EcoStruxure IT Expert synthesizes performance and alarming data into proactive recommendations, and enables secure, wherever-you-go visibility and control. |
| Lead time    | Usually in Stock                                                                                                                                                                                                                                                                                                                                                                           |

## Main

|                           |                                                                                                                                                                                                    |
