

PRO WEBCAM

With Ultra Wide Angle

COLLABORATE AND CONNECT IN WIDER, SHARPER HD VIDEO.

Bring pro-quality video and audio to every video meeting, demonstration, live feed, webinar and blog recording. Logitech Pro Webcam makes it easy with ultra-clear Full HD video, the widest field of view in a business webcam and seamless compatibility with your favorite web conferencing applications. Pro Webcam is everything you need to enjoy the most professional desktop video experience yet.

FEATURES

- Full HD 1080p video at 30 frames per second: Lets clients, colleagues and subscribers see every important detail in your video meetings, presentations and events
- Ultra-wide 90-degree field of view: More freedom to comfortably include products, props or a co-presenter in the video frame
- H.264/SVC UVC 1.5 encoding technology: Processes video in the camera for smoother video without taxing computer-processing power
- Versatile pan, tilt, 4X zoom and simple on-screen controls: Easily change camera angles right from your keyboard¹
- Plug-and-play connections: Use with Mac® or Windows® PC; certified for Skype® for Business and Skype; compatible with virtually any video conferencing application
- Logitech RightLight™2 technology, autofocus, Zeiss®-certified glass lens: Your video looks clear and razor sharp, even in poor lighting and tight close-ups

SYSTEM REQUIREMENTS

- Windows® 8 or 7, or Mac OS® X 10.7 or higher
- 2.4GHz Intel® Core 2 Duo processor
