

Team up with HP to power your future of work

HP Windows 11 Migration Services¹

The future of work is coming fast

Our vision for the future of work

HP sees a future of work where IT plays a more strategic role in business growth.

As we accelerate to October 14th, 2025, when Windows 10 support ends, the coming months mark a critical time for many IT Teams. The move to Windows 11 is an opportunity for IT to drive improved employee experiences and deliver more business impact.

In the same way the expertise of an F1 pit crew is essential to success, at HP we have the enterprise know-how, expertise and global reach across hardware, software, and services to be your pit crew as you embark on your journey into the future.

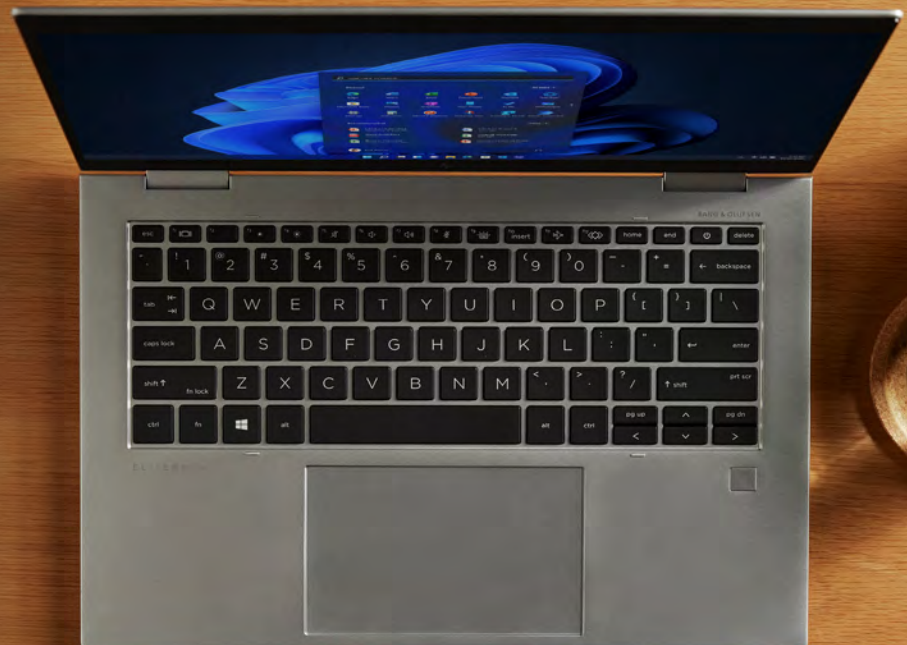

Are you ready?

When Windows 10 reaches end of life, Microsoft will no longer provide bug fixes for issues, security fixes for vulnerabilities, time zone updates, or technical support for problems that might occur.²

The migration to Windows 11 is not just another upgrade

With less than 18 months to go, there is an urgent need for many IT teams to assess the readiness of their apps for Windows 11. This is especially important for those looking to move to modern management with Intune. It is also vital to have a clear plan in place for hardware refresh and upgrade to ensure a smooth transition.

Barriers for IT Teams to deliver great work experiences with Windows 11

APPLICATION TESTING

Traditional methods of testing applications for Windows 11 across diverse device environments often require a significant investment of time and resources.

HARDWARE READINESS

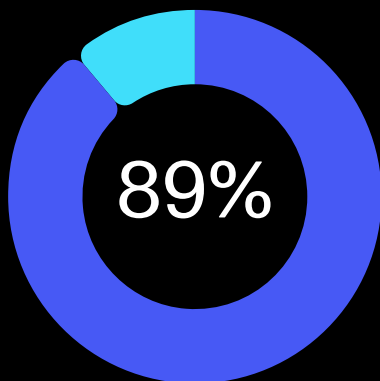

Optimizing expenditure for hardware refresh and upgrade is an imperative that requires an in-depth assessment of the fleet, evaluation of personas, and an end-to-end roll-out plan.

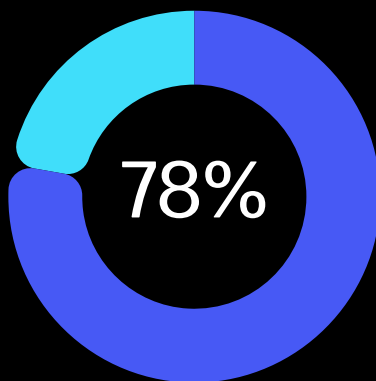

LEGACY INFRASTRUCTURE

Windows 11 is optimized for modern cloud-based management. However, shifting enterprise IT workloads to the cloud can be complex and requires expertise.

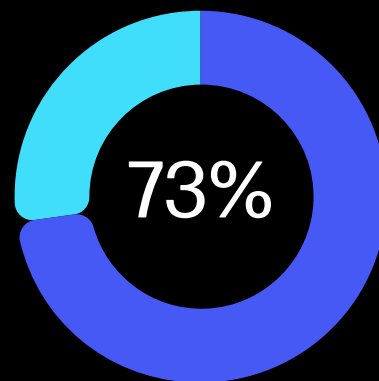

Many employees are not getting the experiences at work they need and expect.

of employees say old technology is stifling their productivity.³

of AI users are bringing their own AI tools to work (BYOAI).⁴

of knowledge workers say their company does not give them the best tools to be successful.⁵

Prepare for the future of work with Windows 11 Migration Services¹

TURN INNOVATION INTO OUTCOMES

Bridge the gap with our proven end-to-end Windows 11 transformation framework that aligns strategy, affordability, and technology investments with business outcomes.

WORK WITH EXPERTISE YOU CAN TRUST⁶

Draw on our tried and tested enterprise know-how to meet the needs of your Windows 11 application⁷, infrastructure, and hardware migration.⁸

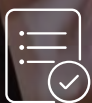

ENABLE YOUR WORKFORCE WITH MODERN HARDWARE

Unlock the potential of your people through AI-powered experiences with HP Windows 11 PCs to lay the right foundations for the future.⁹

Windows 11 Migration Services from HP Professional Services¹ are designed to accelerate application readiness, optimize hardware refresh, and architect an infrastructure design fit for your future of work.

HP Professional Services¹

1. DEFINE

A proven methodology to define and design a Windows 11 strategy and plan aligned to your business goals.

2. DESIGN

A Windows 11 solution architected by enterprise experts, with a proof of value to demonstrate outcomes.

3. DEPLOY

End-to-end deployment, including technical configuration, project management, and logistics.

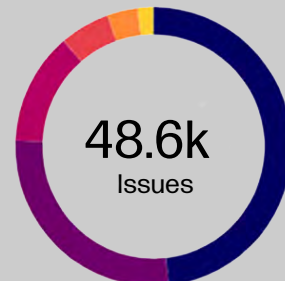

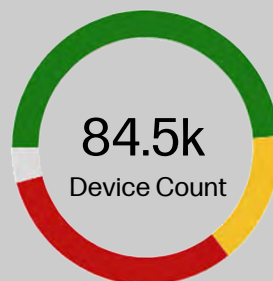

How we help accelerate your transformation to Windows 11

Optimize hardware refresh

See which PCs meet Microsoft's requirements for Windows 11.⁹

Understand how to address Windows 11 compatibility issues.

Execute a solid Windows 11 refresh strategy through clear plans and reports.

HP Device Telemetry

Automate application readiness⁷

Leverage powerful automation using our digital twin to minimize change management risk.

Identify single points of application failure to enhance diagnostic accuracy.

Reduce application testing and Intune migration timelines from months and weeks, to days.

Cloud-based application readiness platform.

Shift to modern management with our experts

Time savings for endpoint management with Intune.¹⁰

Up to 50%

Why Intune for Windows 11?

Streamline device provisioning.

Get advanced endpoint security.

Automate policy deployments.

Deploy self-serve capabilities.

Simplify application management.

Manage endpoint diversity and compliance.
