

4XEM's USB 2.0 HDMI Video Capture Card

4XEM Part- 4XUSBHDMIVIDCAP

4XEM's Video Capture Card is a great tool for any streamer or videographer regardless of experience. The intuitive design and lack of any additional cables or wires makes the device a great fit for anyone looking to begin capturing video or any veteran working between sites. This card can work within any preferred setup. The card supports OBS, VLC, and Amcap while also being compatible with Windows, Mac and Android. Additionally, the card supports an input resolution up to 4K and can maintain an output resolution of 1080P at 30fps (frames per second). If you are looking to start a career in streaming or videography, or you already have and are looking for a reliable capture card look no farther.
