

SureColor® T7770DM

44-Inch Large-Format
Multifunction CAD/Technical Printer

Print | Copy | Scan

A1/D-size prints in as fast
as 16 seconds¹

**This design changes
everything.**

Incredible speed and performance — delivers crisp, detailed, colorful prints using a reliable 2.64" PrecisionCore® MicroTFP printhead, producing remarkable A1/D-size prints in as fast as 16 seconds¹

Innovative design fits almost any workflow — unique flattop design with complete front operation, simple automatic roll loading and dual roll/take-up reel integrated

Compact design with integrated 36" wide dual-light scanner — scan and copy documents up to 36" wide with no additional footprint vs. single-function T7770 Series printers; dual light source reduces the appearance of wrinkles

Versatile high-speed scanning options — scan files to USB, mobile devices, PCs, network folders and more at speeds up to 10 ips (black-and-white) and 4.5 ips (color)²; file formats include PDF, JPEG and TIFF; line drawing, blueprint and rendering enhancement predefined modes available based on image type

Stunning image quality and precise line detail — vivid UltraChrome® XD3 Ink with Red Ink produces crisp lines and vibrant colors for graphics, signage, blueprints, documents and more

Print on a wide range of media for various applications — print on a variety of media, including glossy, technical, bond, matte and specialty media, and rigid posterboard up to 1.5 mm thick

Seamless, dual-roll productivity — accommodate two media types or sizes, or use the second roll as a take-up reel for roll-to-roll production

Easy to use and maintain — configurable 4.3" touchscreen control panel for simple operation, automated routine maintenance and convenient user self-service for long-term operation

Designed for use exclusively with Epson® ink cartridges.*

1 Print speeds are based on the print engine speed only. Total throughput time for any print depends on various factors including workstation configuration, file size, print resolution, ink coverage and networking. Actual print speeds will vary. **2** Based on scans at 200 dpi in Black-and-White or Color Mode. **3** Cartridge yields vary considerably based on images printed, print settings, paper type, frequency of use and temperature. For print quality, a variable amount of ink remains in the cartridge after the "replace cartridge" indicator comes on. The printer ships with a full set of initial cartridges, and part of the ink from the first cartridges is used for priming the printer. **4** For the latest drivers, visit www.epson.com/support. **5** High-volume cutting of canvas and heavy media stocks may require frequent cutter replacement. **6** At 23 °C (73 °F), 50% relative humidity, single-weight matte paper, CAD/Line Drawing, Max. Quality, High Speed = On. **7** Allowed by printer driver for Mac, PC, and RIP used. Application, version of application, operating system, and operating system version may limit maximum length. **8** All features of this system require an active Internet connection and the use of a supported browser. **9** See individual service plan for details. **10** Product comes with a 1-year limited warranty with the option to purchase Extended Service Plans up to a total of 5 years of continuous coverage. Extended Service Plan can be purchased at any time that you are covered under an Epson limited warranty or Epson Extended Service Plan. **11** For convenient and reasonable recycling options, visit www.epson.com/recycle. **12** SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
