

# Laptop Cable Lock - 4-Digit Combination Lock for Wedge-Type Slot

Product ID: LTLOCKNBL

Help guard your laptop against theft, while allowing full functionality. This laptop cable lock helps protect your laptop or other device equipped with a Noble® Wedgelo® slot. The laptop anti-theft lock has a 4-digit resettable combination for enhanced security at the office or on the go.

## Works with the Wedge-type Lock Slot

Ensure your laptop is protected. The computer anti-theft cable lock fits into laptops and devices equipped with a wedge lock slot. Attach your laptop to your desk or any fixed structure using the 2 m (6.5') locking cable. It's an easy way to help prevent theft in areas with high foot traffic including retail, commercial, educational and institutional environments.

## **Offers Greater Motion**

While your notebook is secured with the anti-theft locking cable, you can still move it freely. The swivel hinge enables motion in two directions - the hinge rotates 360 degrees around the lock head, and pivots 90 degrees for easy locking and unlocking.

## **Resettable 4-Digit Combination Lock**

Choose your own combination so you can remember it easily. Or, prevent others from knowing your passcode by changing it often. The 4-digit combination on the security cable lock is easy to change.

## **Versatile Use**

Ideal for use at the office or when travelling, the portable combination lock features a strong vinyl-coated steel cable (4.4 mm diameter). To secure your device in different work spaces, the flexible steel cable bends easily to loop around a stationary post or object.

The TAA compliant LTLOCKNBL is backed by a StarTech.com 2-year warranty and free lifetime technical support.

### **Certifications, Reports and Compatibility**

### **Applications**

- Attach the cable lock to the wedge lock slot of your laptop to protect it when working remotely
- An essential anti-theft tool in high-security environments
- Secure your laptop or other device in unsupervised areas
