

USB-C® Charging Cabinet – Up to 10 devices – PD 3.0

Secure USB-C® charging made simple.

K67716NA

Product Description

In today's busy environments, educators, corporate professionals, and healthcare workers face significant challenges in managing multiple devices. Unsecured devices risk theft or damage, while slow charging leads to frustrating downtime. The Kensington USB-C® Charging Cabinet effectively addresses these challenges, offering a secure, efficient solution that transforms device management. By ensuring rapid charging and robust protection from theft and overheating, this cabinet empowers users to focus on their work without worry, enhancing productivity and user satisfaction.

Features

- Rapidly charges all stored devices simultaneously.
- Lockable cabinet design safeguards devices from theft and damage.
- Supports USB-C® devices without the need for adapters.
- Securely stores and charges up to 10 devices.
- Adjustable shelving accommodates different smartphones and tablets.
- Tamper-resistant door supports device security.
- Integrated cooling system prevents devices from overheating.
- LED indicators provide real-time charging status updates.
- Meets ISO/IEC 270001 standards for data protection.
- 1-year limited warranty.
