

Simplified Management of PCoIP® Zero Clients and Remote Workstation Cards

PCoIP® Management Console Enterprise

Teradici PCoIP Management Console Enterprise Edition is a web-based tool that enables efficient and simplified management of Tera2 PCoIP Zero Clients and Remote Workstation Cards. Multiple IT administrators can easily manage, monitor and scale their distributed PCoIP deployment with an intuitive dashboard, operational metrics, configuration settings, and event logs – increasing IT agility. The software ensures you have complete control over any brand of PCoIP Zero Client or Remote Workstation Card. Management Console Enterprise is available through a one or three-year subscription to any Teradici All Access plan. Subscriptions also include 24 x7 Teradici Product Support and Maintenance.

Simplify device management

- Flexibility to manage your PCoIP Zero Clients and Remote Workstation Cards individually or in groups with a standard profile and security settings – saving time and resources
- Deploy and manage any brand of PCoIP Zero Clients and Remote Workstation Cards from a single interface and schedule updates with ease
- Ensure effective troubleshooting and proactive problem resolution through a secure management plane

Highly scalable

- Manage up to 20,000 Tera2 PCoIP Zero Clients and Remote Workstation Cards from a single console
- Enable multiple IT administrators to gain simultaneous access to the software with full administration capabilities

Rapid deployment of PCoIP Zero Clients and Remote Workstation Cards

- Ensure ongoing user uptime with the ability to configure new devices quickly and efficiently
- Enjoy an 'at-a-glance view' of your deployment with the intuitive dashboard
- Manage power consumption of devices remotely
