CHERRY MX BOARD 3.0 S - Speed and performance in an innovative aluminum design!

The CHERRY MX BOARD 3.0 S stands for speed and performance. Whether in the home office, office, or gaming, at the end of the day, this keyboard is the ideal partner when it comes to precision. The elegantly, extruded aluminum housing integrates the original CHERRY MX switches with all relevant functions for the highest quality.

With CHERRY MX RED SILENT switches, the patented damping minimizes actuation noise without affecting the typical linear MX RED actuation feel.

Thanks to Full N-Key Rollover and Anti-Ghosting, unwanted inputs and double or missing letters are a thing of the past. No matter if you are programming, writing or during an extended after-work gaming session. Especially in the creative phase or in the middle of a game, nothing may slip or wobble. The MX BOARD 3.0 S stands on four rubberized feet to ensure the stability.

In terms of design, this keyboard has the leading edge. The elegant, extruded housing does not need any screws, which still underlines the timeless character of the product. A real eye-catcher on every desk. The robust quality of workmanship in a technical look is also evident in the detachable cable with mini-USB B connection. Required by the professional user for superior life, the abrasion-resistant key caps are either double plastic-injected or lasered.

Key benefits

- Gaming style, corded keyboard in high-quality extruded aluminum housing
- Intelligent, technical design completely without screws
- Genuine MX RED SILENT switches for quiet, comfortable typing
- Full RGB with onboard memory for 5 dynamic layouts
- Abrasion-resistant key caps, lasered or double shot, depending on the model
- Full n-key rollover - all keys are read simultaneously
- Anti-ghosting - no input errors
- WIN key lockout for gaming
- Securely plugged, detachable cable
- Four round rubber feet for extra stability
- Download the free CHERRY KEYS software for even more flexibility
- Cleanable aluminum anodized palm rest

Technical Data:

Layout (country or language):

U.S. English

Housing color:

Product dependent, see table "Models"

Key color:

Product dependent, see table "Models"

Weight (product):

Approx. 1025 g

Total weight (with packaging):

Approx. 1310 g

Cable Length:

Approx. 1,80 m

Storage Temperature:

-20 °C to +60 °C

Operating Temperature:

0 °C to +50 °C

Current Consumption:

max. 500 mA

Interface:

USB

Product approvals:

- CE
- FCC
- KCC
- BSMI

System requirements:

USB connection

Delivery Volume:

- Keyboard
- Operating instructions

Dimensions:

Keyboard: approx. 430 x 140 x 36 mm

Packaging: approx. 460 x 180 x 40 mm

Keyboard:

- Key technology: MX
- Service life and characteristics depend on switch specification (see www.cherrymx.de/en). > 50 million actuations.
- Operation characteristics: Product dependent, see table "Models"
- Inscription technology: Product dependent, see table "Models"
- Number of keys: Product dependent, see table "Models"
- Number of additional keys: 5

Packaging Unit:

- Number of products in the master package: 8

Warranty:

2 years
