

# Mini Travel Optical Mice

Go Mini! This mini optical travel mouse works great on the go! The ultra-portable design takes up little space and is perfect for notebook users. Consumers don't have to wrap the cord around the mouse or deal with tangles since this optical travel mouse features a convenient retractable USB cable.

On a plane or in a car, this mini mouse easily plugs into a USB port and then the consumer can start dragging and dropping files. This portable mouse comes in a variety of cool colors and works on any computer with a USB port.

The Mini Travel Optical Mouse is also available with a USB-C connector - perfect for use with your USB-C equipped notebook.
