

## DisplayPort to HDMI Active Adapter (M/F), Latching Connector, 4K 60 Hz, DP1.2, HDCP 2.2, Black, 6 in.

MODEL NUMBER: P136-06N-H2V2LB

Connects your DisplayPort (DP) laptop to a 4K HDMI monitor, projector or HDTV for crystal-clear video and audio.

### Features

**More Convenient, Less Expensive Way to Watch 4K Video** This DisplayPort to HDMI active converter expands the potential of your DP computer or laptop by allowing it to transmit UHD video and audio to a 4K monitor, projector or HDTV. This allows you to continue using your existing HDMI display with a DisplayPort 1.2 source device.

**Latching DisplayPort Plug Provides a Secure Connection** The molded DP connector features special latches, which help prevent the DP to HDMI adapter from becoming loose or accidentally dislodged from the source device and causing signal loss.

**Outstanding 4K x 2K Picture Quality at 60 Hz** This adapter cable supports HDMI bandwidth up to 18 Gbps, allowing you to enjoy 4K video on a large HDMI monitor or digital sign. It supports video resolutions up to 4K at 60 Hz (3840 x 2160), as specified in HDMI 2.0, and DisplayPort 1.2 audio (if your DP card supports audio pass through). It is backward compatible with all previous HDMI versions.

**Ready to Use Right Out of the Package** The plug-and-play DisplayPort to HDMI active converter requires no software, drivers or external power. It's compatible with both Single- and Dual-Mode (DP++) DP output, and recommended for use with graphics cards that do not output DP++ signals. The compact unit fits easily into a briefcase or laptop bag for connecting on the go.

**Premium Construction for Premium Performance** Foil and braid shielding delivers reliable, error-free signal quality and protection from EMI/RFI line noise that can distort or destroy data. Molded connectors with corrosion-resistant gold-plated contacts provide maximum conductivity and minimize data loss. Integral strain relief reduces stress and helps the cable and connectors move freely without cracking.

### Highlights

- Keep using your current HDMI display with a DisplayPort 1.2 source
- Supports UHD resolutions up to 4K @ 60 Hz for crystal-clear video
- Latching DP connector prevents cable from becoming accidentally dislodged
- Compact unit fits easily into briefcase or laptop bag for immediate use anywhere
- Plug-and-play operation with no software required for easy, immediate installation

### Applications

- Play video from your DP laptop or PC on a 4K HDMI display device, such as an HDTV
- Access documents and websites across multiple displays
- Design and edit graphics files or production video on a larger HDMI monitor
- Look at high-definition photos from your DP computer on a flat-screen HDMI TV
- Display menus, ads, promos, directions and other digital signage applications on an HD monitor

### System Requirements

- Source device with DisplayPort output
- Display device with HDMI input

### Package Includes

P136-06N-H2V2LB DisplayPort to HDMI 2.0 Adapter (M/F), Black, 6 in.
