

ClickSafe® 2.0 Universal Keyed Laptop Lock - TAA

The keyed cable lock that fits any laptop security slot.

K68102TAA

Product Description

The ClickSafe® 2.0 Universal Keyed Laptop Lock fits any laptop security slot — standard T-bar, nano, or wedge-shaped — to lock down your laptop, regardless of brand or generation. From Kensington, inventor and worldwide leader in laptop security locks.

Features

- One lock for any slot — fits standard T-bar, nano, or wedge-shaped laptop security slots, regardless of brand or generation.
- 5mm keying system is common across all of Kensington's latest locks, so there's only one keying system to manage. A master keying option and custom keying solutions allow you to have one key open all locks, and create supervisor-keyed and like-keyed versions.
- ClickSafe® locking technology allows the lock head to be attached with one hand in a single click.
- Patented anti-pick Hidden Pin™ technology resists tampering and offers peace-of-mind. 1.8m (6 ft.) carbon steel cable with plastic sheath delivers the same level of cut and theft resistance as thicker cables.
- A special pivot and rotate hinge on the cable allows flexible movement and easy key insertion.
- Register & Retrieve™, Kensington's online key registration program, allows for quick, secure, and free key replacement if ever lost or stolen.
- Kensington locks are verified and tested. Each lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance, and mechanical resilience.
- A five-year warranty means you can rest assured knowing you're covered by Kensington, inventor and worldwide leader in laptop security locks.
- TAA Compliant
