Product Description:

The JACO PerfectView mobile presentation cart provides elegant styling and effortless handling on a flexible, customizable and upgradable platform. Crafted from lightweight aluminum with a solid, impact resistant finish, the superior engineering creates an ideal mobile presentation solution.

The PerfectView system provides a clean design and robust platform for your large screen presentations and video conferencing needs. Applying innovative engineering and high quality manufacturing talents, JACO's PerfectView combines brilliant clear displays with the convenience of effortless mobility.

Key Selling Points:

- 16" Range Height Adjustment
- Oversized 5" Dual Wheel Casters
- Rugged Aluminum Design
- Universal Monitor Mount Kit
- Shelf for Laptop / Tablet / PC
- Hidden Cable Management Raceway
- Includes External 8 ft Power Cord and USB Cable for Wireless Keyboard Dongle

Product Features:

Wide Base, Stable Platform

Constructed with a wide, 16" x 16" base with dual wheel 5" casters, the PerfectView provides a solid, stable platform for your large screen monitor. Additionally, we provide an ample location behind the display to hold your laptop or tablet, with the required connections all pre-wired and secreted away. Avoid the mess of tangled cords that other presentation carts suffer from and use the PerfectView to keep everything neat and organized.

Easy, Fast Height Adjustment

The PerfectView features a convenient foot lever at the base of the cart which allows you to quickly and easily adjust the height of the display. With a full range of 16", you can raise it up high so that people in the back of a large room can easily see, or lower it down to table height to get an up-close-and-personal look during a small meeting.
