zoomrooms

SOLUTION OVERVIEW:

Software-based, Flawless Video, Integrated Audio, and Wireless Content Sharing come together on a single appliance for the optimal Zoom Room experience.

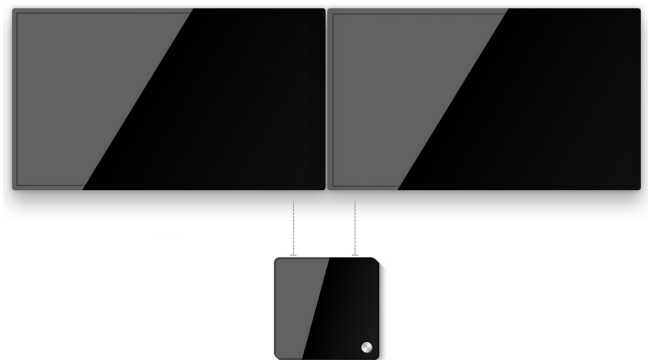

ZOOM ROOM SINGLE SCREEN

The Zoom Room Single Screen is ideal for small to medium meeting rooms. This unit is powered by an Intel® Dual Core™ i5-7300U processor at 2.6 – 3.5 GHz and includes 8GB DDR4 memory, 128GB storage, and a pre-installed, licensed copy of Windows 10 Pro.

ZOOM ROOM DUAL SCREEN

The Zoom Room Dual Screen allows 2 simultaneous screens for conferencing. This unit is powered by an Intel® Dual Core™ i5-7300U processor at 2.6 – 3.5 GHz and includes 16GB DDR4 memory, 128GB storage, and a pre-installed, licensed copy of Windows 10 Pro.

ZOOM ROOM TRIPLE SCREEN

This Zoom Room Triple Screen solution includes an additional HDMI output and the power to drive 3 displays for the ultimate video conferencing setup. This unit is powered by an Intel® Quad Core™ i7-8650U processor at 1.9 – 4.2 GHz and includes 16GB DDR4 memory, 128GB storage, and a pre-installed, licensed copy of Windows 10 Pro.
