Architecture for Business
Designed to optimise the workspace

Mobility Solution: Logitech Comfort Workstation

Designed for a professional and ergonomic workspace at home

Employees who spend a significant percentage of office hours working from home need to maintain a professional edge while effectively managing the indistinct lines between their personal lives and business workspaces. Logitech's ergonomically designed **Comfort Workstation** peripherals ensure flexibility when working from home, optimising productivity and comfort.

Business benefits:

- Designed to support ergonomic work habits
- High-productivity tools
- Optimised for the workspace at home
- Low IT maintenance.

Logitech® Alto™ Keyboard

Remote workers and telecommuters can now enjoy full desktop comfort and functionality with Logitech's Alto Keyboard. A portable notebook stand and integrated keyboard, the Alto flips open on almost any flat surface, its keyboard folds over the notebook to free up space and then elevates the screen to an optimal eye level - ensuring good working posture. The integrated soft wrist rest provides extra support.

Logitech® VX Revolution™

An innovation in PC navigation and productivity, Logitech's VX Revolution mouse combines both 2.4 GHz cordless and laser technologies to deliver ultra-precise tracking and inference-free operation. Its hyper-fast scroll wheel operates in 2 modes – free-spin for hyper-speed browsing and click-to-click to move line-by-line in complex documents – all enhanced by a comfortable contoured, rubber grip.

Logitech Comfort Workstation

Logitech® Alto™ Keyboard

Features
