

GPAWC72W

USB-C 72W 4-Port Charger

- Centralized charging station for your USB mobile devices
- Charge (1) USB-C and (3) USB-A devices simultaneously
- Intelligent design provides just the right power for your devices
- Built-in protection against overcurrent and overvoltage
- Full range 100-240VAC voltage support

Charge Multiple Devices Simultaneously

Charge up your most power-hungry USB-C devices such as a laptop, smartphone or tablet and up to three (3) USB-A peripherals with IOGEAR's USB-C 72W 4-Port Charger. This flexible, portable charger plugs into any standard outlet and is perfect for use anywhere you want to charge multiple devices at the same time.

Big Power in a Compact Design

The USB-C 72W 4-Port Charger accommodates the power demands of USB-C devices such as a laptop or tablet with a charging capacity of up to 60W on its single port. Power up to three (3) USB-A devices simultaneously with a maximum charging capacity of 12W for the ultimate in charging efficiency. With its compact design, the 4-port charger easily finds a home on the kitchen counter, nightstand, in the office or on the road with you.

Certified USB

As a Certified USB Charger, the IOGEAR USB-C 72W 4-Port Charger has met the highest standards in the industry and was tested for interoperability with other USB products by the USB Implementers Forum (USB-IF). Certified USB Chargers support the future of the electronics market by freeing consumers from purchasing and maintaining multiple chargers for their devices while encouraging the reuse and reduction of the number of chargers needed helps minimize electronic waste in landfills.
