

MagPro™ Elite Magnetic Privacy Screen Filter for Surface Laptop Studio

Privacy begins on screen.

K51701WW

Product Description

The move toward hybrid working means that the modern workplace is no longer a single, easy-to-secure location. Users can be working anywhere, with an increased chance of visual hacking. Owners of the Surface Laptop Studio require a privacy screen filter that can be quickly attached and detached, allowing the laptop to close completely to enter sleep mode. The MagPro™ Elite Magnetic Privacy Screen Filter attaches seamlessly to the Surface Laptop Studio's magnetic frame, requiring no inconvenient adhesives. Allowing the device to close completely, the screen narrows the viewing angle to $\pm 30^\circ$, limiting the chance of unauthorised viewing and reducing harmful blue light and glare. Two-year warranty.

Features

- Designed exclusively for Surface, Kensington worked directly with Microsoft to ensure that the privacy screen filter works perfectly with your Surface Laptop Studio.
- Conveniently and easily attaches to - and detaches from - the Surface Laptop Studio's magnetic frame. Avoids potentially damaging adhesives from being used and eliminates any setup process.
- Limited viewing angle narrows the field of vision to $\pm 30^\circ$, helping keep the information on your screen private and reducing the chances of a visual data breach.
- Low-reflective matte coating reduces glare and fingerprints for improved clarity.
- Blue light reduction filters out harmful rays by up to 30%, easing eye strain and reducing the chances of interrupted sleep patterns.
- Touch and Surface Pen enabled, so you can use your Surface Laptop Studio just as you would without a privacy screen filter.
- Protective case helps keep your screen clean and prevents scratches when not in use.
- A two-year warranty means you can rest assured knowing you're covered by Kensington.

Specifications

- **Device Compatibility** Surface Laptop Studio, Surface Laptop Studio
