## SUSTAINABILITY

- **DESIGNING A POSITIVE FUTURE:** We design technology with your future in mind, because big change starts with people.
- As we innovate our new generation of products, we reduce their carbon footprint in any way we can — from their overall construction to the tiniest component. All with zero compromises on quality and performance.
- **MADE WITH RECYCLED PLASTIC:** The plastic parts in Wave Keys include certified post-consumer recycled plastic —61% for Graphite color and 46% for Off-White color\* — to give a second life to end-of-life plastic from old consumer electronics and help reduce our carbon footprint.
- \*Excludes plastic in printed wiring assembly (PWA), cables, and packaging
- **RESPONSIBLE PACKAGING:** The paper packaging of Wave Keys comes from FSC™-certified forests and other controlled sources. By choosing this product, you are supporting responsible management of the world's forests.
- **CERTIFIED CARBON NEUTRAL:** Rest easy knowing that the carbon footprint of Wave Keys has been reduced to zero. That's because beyond designing for sustainability, we also offset our residual impact by supporting forestry, renewables, and climate-impacted communities that reduce carbon.
