HP iPAQ 610 Business Navigator

Move your business ahead, turn by turn.

Your business has to keep running when you are on the go. This two-in-one 3G technology mobile phone with GPS navigation and personal organizer helps you run your business single handedly.

Two-in-one mobile phone with GPS navigation and personal organizer.
Phone: Make voice calls and access the Internet globally via 3G and Quad-band wireless technology. IM and email your associates. Use HP iPAQ Device Connect to take your notebook or PC online over the high-speed HSDPA data network.[1,2]

GPS: Let Assisted GPS guide you to your business destinations.[5]

Organizer: Use familiar applications to manage your day. Mobile Office Outlook® includes Calendar, Contacts, Email, and Tasks.

Camera: Capture high-quality photos and video with the integrated 3 Megapixel camera.[8]

Media Player: Watch videos and read ebooks with Windows Media Player 10 Mobile, and listen to your favorite music through the speaker or with an optional Bluetooth stereo headset.

Designed for single-handed use.
Scroll through your email, zoom in and out of maps, and look through your files with the Smart Touch wheel and three-way thumb wheel. View your work comfortably with the big, bright touch screen display. Easily switch between portrait and landscape display modes.

A powerful mobile solution goes beyond the device. Whether you're an IT manager or a mobile professional, you work in a complex environment. Your world—spanning countries and continents, an array of wireless technologies and networks, and powerful applications and communication tools—has a singular purpose: to drive business results.

HP, a global leader in technology, services, and support, understands that mission. Our mobile devices are certainly impressive – but they're just a small piece of the challenging puzzle that is your enterprise mobility program. Your business runs on key applications. Your proprietary data is irreplaceable and must be protected. Your IT effort that goes into testing, approval, deployment, and remote management is enormous.

HP can help you deploy and support your mobility strategy—from device-level support to enterprise support solutions, across geographies and vendors. Put our mobile devices and global support to work for you. [6]

Think mobile. Think global. Think HP.
