

Unlock the hidden potential of your screens

Airtame is revolutionizing the way teams connect and engage with screens. The Airtame platform offers innovative solutions for hybrid video conferencing, digital signage, and wireless screen sharing. With Airtame, everyone can share, learn, and connect on equal footing, no matter their preferred service.

What we provide

Digital Signage

Show relevant information when you want with custom schedules.

Screen-sharing

Share content from any device at the click of a button.

Hybrid Conferencing

Have efficient virtual meetings in your rooms where everyone is heard.

Remote management

Easily bulk control all screens from a central management system.

What we offer

All-in-one vendor

The Airtame platform transforms screens into a multipurpose portal for sharing and engaging.

Breathing life into screens

Make your organization full of life and personality with beautifully branded content instead of idle black screens.

No cables, no wasted time

Enjoy a one-click wireless solution and save time with every call and screen-sharing session. No more dongles and cables.

Keep people informed

Share your existing slides, webpages, photos, and videos with custom playlists.

Share your content

Share your screen or window with audio for increased awareness from your audience.

Smooth hybrid calls

A hybrid conference call which simply works with Plug'n'Play camera and audio peripheral support.
