

EcoTank ET-2700

DATASHEET / BROCHURE

Meet Epson's next generation of EcoTank. This 3-in-1 inkjet with Wi-Fi is easy to use and comes with three years' worth of ink included¹.

Cartridge-free printing

Go longer between refills with EcoTank. It uses ultra-high-capacity ink tanks to completely remove the need for cartridges. In fact, it comes with the equivalent of 72 cartridges worth of ink².

Ultra-low cost

Three whole years¹ – that's how long you could go without buying more ink for the ET-2700. Giving you an extremely low cost-per-page, it produces an impressive 7,500 pages in black and 6,000 in colour³.

Discover the next generation of EcoTank

With the ink tank now housed at the front, EcoTank is more compact and easier to use than ever before. Protecting you against leaks and spills, it features an enhanced ink filling system engineered for mess-free refills. The new bottles also incorporate a mechanism to ensure that only the correct colours are inserted. Thanks to the front ink level display, it's now easy to see when it's finally due for a refill. And with pigment black and dye colour inks, it produces prints with crisp, clear text and vivid colours.

Print from almost anywhere

With Wi-Fi and Wi-Fi Direct, you can send documents to print from smart devices using the Epson iPrint⁴ app. It can even receive files from almost anywhere in the world via Epson Email Print⁴.

Peace of mind

With a Micro Piezo printhead, EcoTank provides a reliable printing solution which is backed by a three year warranty (upon registration).

* Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 24712 with replacement sets of ink. Quoted yields are NOT based on ISO/IEC 24711. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.

1. Based on an average print volume of 140 pages per month and considering the lowest yield produced from the first set of inks.
2. Based on Epson calculations, average cost per page saving and average number of inkjet cartridges required to print the same number of pages as EcoTank "102" and "104" ink bottles. Comparison between average yield (A4 prints of ISO/IEC 24711) of EcoTank "102" and "104" bottles and the genuine consumables used within the 50 best-selling inkjet cartridge printers (for Germany, France, UK, Spain and Italy Apr-19 – Mar 2020). Cost per page calculated with reference to the average printing costs for EcoTank "102" and "104" bottles and amongst these top 50 models, calculated by dividing the relevant bottle/cartridge sales revenue and total yield by unit sales (for Germany, France, UK, Spain and Italy Apr-19 – Mar 2020).
