HP IPAQ DATA MESSENGER

Intelligent communication meets style.

This beautiful 3G world phone with large touch screen display, slide-out alphanumeric keyboard and GPS gives a new style to your mobile messaging and navigation experience.

Communicate intelligently

As a traveling professional, you appreciate convenience and intelligence. Whether you choose to communicate through email, voice, texting, instant messaging, or the Internet – in many countries around the world – the HP iPAQ Data Messenger can handle it[1,2]. Toggle between your work and personal email, including push e-mail (Microsoft Exchange with Direct Push Technology). Where WiFi networking is available, connect to the Internet and email[1] without using your data plan -minutes. Instant message[1] with integrated Windows Live Messenger. Skip the "new phone" learning curve with familiar Windows Mobile 6.1 Professional Edition. Synchronize your extensive contacts, appointments, and tasks from your PC with

Microsoft Office Outlook Mobile. Store up to 8GB[4] of your important work files with the convenient micro SD slot, and edit them with Microsoft Office Mobile.

Work in style

Beyond intelligence, style matters to you as well. You're a whiz with text and email, and you prefer composing more detailed communications with a full alphanumeric slide-out keyboard. You need to view your mobile content with a large touch screen display that shifts automatically between portrait and landscape modes. When a picture means a thousand words, the integrated 3.1MP auto focus camera with 5X digital zoom is there to help. While on the road, you can even find your way with integrated GPS[5].

Who knew such a smart phone could be so stylish?

1 A standard GSM/GPRS/EDGE/UMTS/HSPA infrastructure, Wi-Fi network access, other Bluetooth-enabled devices, separately purchased equipment, and a service contract with a wireless service provider may be required for applicable wireless communication. Wireless Internet access requires separately purchased Internet service contract. Check with service provider for availability and coverage in your area. Not all web content available. Normal GSM Data Calls (CSD) are not basic GSM data services. These services may not be available via all service providers, and may require separate subscription. Establishment and continuation of a wireless connection depends on network availability, provider support and signal strength. Coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Not all features and service options are available in all areas.

2 Telephone service requires separately purchased contract with a telephone service provider with coverage in your service area. Additional fees may apply for some features, check with service provider.

3 Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Restrictions and limitations apply. For details, visit www.hp.com/go/carepack.

4 Sold separately or as an-add on feature.

5 Purchase of additional maps and/or GPS navigation software may be required to enable some features or allow navigation in certain areas. Availability of maps is limited. Map coverage may vary and is not guaranteed.

6 The 'Read email' Voice Command feature is only available for email sent via an Exchange Server to the Outlook Inbox.
